Product Description

The TrioVing 5312/8 Lock Case is a highly durable, marine-grade mortice lock case constructed from robust stainless steel. Engineered specifically for the demanding environments of the shipping and marine industries, this heavy-duty lock case is designed to withstand harsh coastal and offshore conditions while providing reliable, long-lasting performance.

This lock case is designed to work seamlessly with genuine TrioVing cylinders and handle sets. It is typically paired with the TrioVing 5520 Scandinavian oval cylinder on the outside and the 5541 oval thumbturn on the inside.

The TrioVing 5312/8 is available in both Left Hand and Right Hand configurations to suit your door's opening direction. Please refer to the handing chart to determine the correct unit for your requirements, and select your preferred handing option from the options below.

Please note: TrioVing products are special-order items and are not held in our standard next-day stock. They are dispatched to us weekly, with a typical delivery lead time of approximately 10 days from order. If your requirement is urgent, please contact our team for an accurate estimated time of arrival (ETA).

Technical Specifications

- **Backset:** 55mm
- **Faceplate Length:** 210mm
- **Lockcase Height:** 150mm
- **Lockcase Length:** 80mm
- **Lockcase Width:** 16mm
- **Finish:** Stainless Steel

Brand Profile

TrioVing

TrioVing is a Norwegian lock and door-hardware brand with deep roots in Scandinavia's "make it survive winter and humans" engineering tradition. The modern TrioVing name comes from a series of mergers in Norway's lock industry: **TRIO** was formed in **1904** by the merger of three lock/fittings companies, **VING** formed in **1950**, and the two combined in **1971** to create **TrioVing A/S**, which became Norway's leading lock company.

In **1983**, Finland's **Abloy** entered the Norwegian market by acquiring **TrioVing's Locks and Security** (along with VingCard's hotel security business), pulling TrioVing into the broader Nordic consolidation story that eventually became ASSA ABLOY.

What TrioVing is especially known for today is robust, **Scandinavian-style lockcases and hardware**—including **stainless steel mortice lockcases** that show up in **high-end Scandinavian doors** and **marine applications**, where corrosion resistance isn't a "nice to have," it's the entire point.
