Product Description

This professional key cutting service is for Lock & Key branded restricted keys. These high-security keys are designed to prevent unauthorised duplication, ensuring your property remains secure.

How to Identify Your Key

To order a duplicate or replacement key, check the head of your existing key. It will have a unique code engraved on it starting with one of the following prefixes, followed by a series of numbers:

- 34BB1
- ONL
- NN
- XX
- TK20
- TK200
- ZY

Security & Authorisation Process

As these are restricted security keys, we require official authorisation before any keys can be cut. The registered system owner must email confirmation and approval to sales@lockandkey.co.uk. Please ensure this email is sent promptly, as we cannot process your order until verification has been completed.

Technical Specifications

- **Compatible Key Prefixes:** 34BB1, ONL, NN, XX, TK20, TK200, ZY
- **Brand:** Lock & Key
- **Key Type:** Restricted security key

Key Features

- **Restricted Security:** Prevents unauthorised key duplication for enhanced access control.
- **Genuine Lock & Key Cutting:** Professionally cut to code using precise, high-quality machinery.
- **Strict Authorisation Protocol:** Requires registered system owner approval via email to ensure maximum security.
- **Easy Identification:** Code is clearly engraved on the head of the key for simple ordering.
