Product Description

The Asec Stainless Steel Escutcheon range offers a sleek, modern finish for your doors while neatly covering the keyhole or cylinder cutout. Designed with concealed fixings, these escutcheons provide a clean, professional look without any visible screws, making them ideal for both residential and commercial properties.

This versatile range is available in multiple configurations to suit your specific door hardware needs. You can choose from Euro Cylinder, Oval Cylinder, or UK Mortice mechanisms. Additionally, these escutcheons are offered in a choice of 5mm or 10mm depths (with corresponding diameters of 52mm or 50mm) to match your door furniture profile.

Please select your preferred mechanism, depth, diameter, and manufacturer reference from the options below to find the perfect fit for your project.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
