Brand	Asec
Product type	Cut

Product Description

The Asec 61 2 Lever Cut Cupboard Lock is a reliable mortice-in cabinet lock designed to secure cupboards, drawers, and cabinet doors. Featuring a robust 2-lever mechanism, this lock offers dependable security for everyday domestic and commercial applications.

This lock is not reversible, meaning it is specifically handed to suit either left-hand or right-hand configurations. Please ensure you select the correct handing for your application from the options below when ordering. It is supplied in a high-quality satin brass finish and comes complete with two keys. With 12 unique key differs available, it provides a practical level of security for individual cabinet units.

Please choose your preferred handing (Left Hand or Right Hand), manufacturer reference (AS12225 or AS12226), and barcode from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
