Product Description

The Asec 61 4 Lever Cut Cupboard Lock is a high-quality, traditional locking solution designed to be morticed into the edge of a cupboard door, frame, or drawer. This "cut" style lock sits flush within a cut-out in the woodwork, providing a neat, tidy, and unobtrusive finish that is ideal for both classic and contemporary furniture.

Featuring a robust 4-lever mechanism, this lock offers a secure locking solution with 12 differs. It is supplied complete with a 2-way keyway and two keys. Please note that this lock is non-reversible, meaning you must select the correct handing for your specific application. It is available in both Left Hand and Right Hand options, with corresponding manufacturer references (AS6512 and AS6515). Please choose your required handing and reference from the options below to ensure a perfect fit for your furniture.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
