Specification Summary

Brand	Asec
Product type	Cut

Product Description

The Asec No. 80 Cut Cupboard Lock is a high-quality, flush-fitting lock designed specifically for sliding cupboard doors, cabinets, and desks. As a "cut" lock, it is installed into a cut-out on the edge of the door or drawer, allowing the lock plate to sit flush with the woodwork for a clean, professional finish.

Featuring a secure hook bolt, this lock is ideal for securing sliding doors where a standard straight bolt would not hold. Please note that this lock is non-reversible, so selecting the correct handing is essential. It is available in both Left Hand and Right Hand configurations, with a choice of 2 Lever or 4 Lever mechanisms. Please choose your required handing, mechanism, manufacturer reference, and barcode from the options below.

Each lock is supplied complete with a matching strike plate and two keys, finished in an attractive Satin Brass.

Technical Specifications

- **Brand:** Asec
- **Backset:** 21mm
- **Case Height:** 64mm
- **Case Width:** 38mm
- **Case Depth:** 10mm
- **Forend Width:** 13mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
