Product Description

Add a touch of traditional charm to your home with the Asec Antique Style Fancy Lock Handle. Featuring a classic Fleur-de-Lis design, this decorative lever-on-backplate handle is perfect for period properties, cottage-style interiors, or anyone looking to introduce a rustic, vintage aesthetic to their doors.

Crafted from solid metal and finished in a durable black coating, this handle is built to withstand daily use while maintaining its striking appearance. It features an integrated sprung mechanism, ensuring the lever returns smoothly to its horizontal position after use and reducing wear on your door lock.

Designed for doors fitted with a standard UK mortice sashlock, it has 58mm centres to accommodate a key profile. The handle is supplied as a pair, making it an ideal choice for quick and stylish door upgrades.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
