Specification Summary

Brand	Abus
Product type	Hasp & Staple

Product Description

The ABUS 110 Series Hinged Hasp & Staple is a heavy-duty security solution designed for securing gates, sheds, garages, and storage chests. Constructed from tough steel, this hasp features a hinged joint, making it ideal for corner installations or doors that do not close flush.

To deter opportunist thieves, the hasp is designed with concealed hinge pins and hidden screw fixings that are completely covered when the hasp is closed. The hardened steel staple and hinge pin offer excellent resistance against hacksaw attacks. For added security, carded (Visi-packed) versions are supplied with coach bolts and hardened steel backing plates to reinforce the door.

This versatile hasp is designed for use with padlocks featuring a shackle diameter of up to 13mm. It is available in multiple widths, weights, and packaging options. Please select your preferred size, packaging type, and manufacturer reference from the options below.

Technical Specifications

- **Brand:** Abus
- **Finish:** Steel
- **Width:** 15.5cm or 19.5cm (please select from the options below)
- **Maximum Shackle Diameter:** 13mm
- **Weight:** Range from 262g to 405g (please select from the options below)
- **Packaging:** Bagged or Visi (please select from the options below)
- **Manufacturer Reference:** 110/155 (DG), 110/155 C (DG), 110/195 (DG), or 110/195 C (DG) (please select from the options below)
- **Boxed Quantity:** 3 or 6 (please select from the options below)
- **Barcode:** Multiple options available (please select from the options below)

Key Features

- **Hinged Design:** Ideal for corner solutions (such as boxes and chests) and doors that do not close flush.
- **Concealed Fixings:** Hidden screws and protected hinge pins deter opportunist attacks and prevent them from being driven out.
- **Hardened Steel Staple:** Resists hacksaw and physical attacks for enhanced security.
- **Robust Construction:** Tough steel build suitable for securing gates, sheds, garages, and cabinets.
- **Reinforced Mounting:** Carded (Visi) versions include coach bolts and hardened steel plates for extra door strength.
- **Padlock Compatibility:** Accommodates padlocks with a shackle diameter of up to 13mm.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
