Specification Summary

Brand	Abus
Product type	Hasp & Staple

Product Description

The ABUS 140 Series Hasp & Staple is a high-security, heavy-duty locking solution designed specifically for use with ABUS Diskus® padlocks. Constructed with a robust stainless steel hasp and hinge pin, this hasp offers exceptional resistance against physical attacks and harsh weather conditions. The design features a wide, hardened steel staple that encapsulates and protects the padlock's shackle, shielding it from cutting and prying tools.

To suit different installation requirements, this series is available in multiple configurations. The 12cm (140/120) version is ideal for flush-fitting doors where the door and frame are on the same level. The 19cm (140/190 DG) version features a double-hinged design, making it perfect for non-flush (overlaid) doors or corner installations.

Depending on your needs, you can choose between Boxed or Visi (clamshell) packaging, with Visi-packed versions conveniently supplied with fixings. Please select your preferred width, packaging type, manufacturer reference, and barcode from the options below.

Technical Specifications

- **Brand:** ABUS
- **Finish:** Steel
- **Width:** 12cm or 19cm (please choose from the options below)
- **Shackle Diameter:** 13mm
- **Horizontal Clearance:** 13mm
- **Weight:** Ranges from 327g to 501g (please choose from the options below)
- **Packaging:** Boxed or Visi (please choose from the options below)
- **Boxed Quantity:** 3 or 6 (please choose from the options below)
- **Manufacturer Reference:** 140/120, 140/120 C, 140/190 (DG), or 140/190 C (DG) (please choose from the options below)
- **Barcode:** Multiple options available (please choose from the options below)

Key Features

- **Diskus® Compatibility:** Specially designed to match and protect the shackle of ABUS Diskus® padlocks.
- **High Corrosion Resistance:** Stainless steel hasp and hinge pin provide durable protection against weathering.
- **Attack Resistant:** Hardened steel staple and concealed hinge pins defend against physical force and tampering.
- **Concealed Fixings:** Hidden screws prevent unauthorised removal of the hasp.
- **Flexible Mounting Options:** Available in a standard straight design (12cm) or a double-hinged design (19cm) for corner or non-flush doors.
- **Fixings Included:** Visi-packed versions come complete with the necessary mounting fixings.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
