Product Description

The Asec Concealed 165 Degree Sprung Cabinet Hinge is designed to provide a wide opening angle for cabinet doors, making it an ideal choice for corner cupboards, storage units, or any application where maximum access is required. These high-quality hinges feature an integrated sprung mechanism to keep doors securely closed when not in use, eliminating the need for additional catches.

With a sleek nickel-plated finish, these concealed hinges offer a clean, modern aesthetic by remaining hidden from view when the cabinet door is closed. They are supplied in pairs, allowing you to easily complete a single door installation. Please note that fixings are not included and must be purchased separately.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
