Specification Summary

Brand	Abus
Product type	Combination

Product Description

The ABUS 158 Series Combination Closed Shackle Padlock offers dependable keyless security for medium-risk applications, making it an ideal choice for securing sheds, gates, toolboxes, and lockers. Built with a tough, solid zinc die-cast body and a double-bolted hardened steel shackle, this padlock provides excellent resistance to physical force and pulling.

The closed shackle (CS) design features an integrated shackle guard that significantly reduces exposure, protecting the shackle from hacksaw, bolt cropper, and other cutting attacks. For convenience, the lock features a fully resettable combination mechanism, allowing you to easily set and reset your own custom PIN.

This padlock is available in a choice of sizes and combination configurations to suit your security requirements. Options include a 50mm body width with a 4-digit combination, or a larger 65mm body width with a 5-digit combination. Please select your preferred size, body dimensions, and combination style from the options below.

Technical Specifications

- **Brand:** ABUS
- **Manufacturer Reference:** 158/50 or 158/65 (please choose from the options below)
- **Body Width:** 50mm or 65mm (please choose from the options below)
- **Body Height:** 97mm or 116mm (please choose from the options below)
- **Body Depth:** 23mm or 26mm (please choose from the options below)
- **Shackle Diameter:** 8mm
- **Shackle Material:** Hardened steel
- **Locking Mechanism:** Resettable combination (4-digit or 5-digit options available below)
- **Weight:** 358g or 619g (please choose from the options below)
- **Barcode:** Multiple options available (please choose from the options below)

Key Features

- **Closed Shackle Protection:** Integrated shackle guard protects the hardened steel shackle from cutting and cropping attacks.
- **Resettable Code:** Keyless convenience with a user-resettable combination (4-digit or 5-digit options available below) to set your own PIN.
- **Robust Construction:** Tough, solid zinc die-cast body with a double-bolted shackle for enhanced pull resistance.
- **Versatile Security:** Ideal for securing gates, sheds, toolboxes, lockers, and other medium-risk areas.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
