Specification Summary

Brand	Asec
Product type	Key Cabinet

Product Description

The Asec Extra Security 50 Hook Cabinet is a heavy-duty, deep-bodied storage solution specifically designed for the secure organisation of padlocks and bulky key bunches. Built with a solid square-bodied steel construction, this cabinet features an innovative criss-cross door design that provides exceptional rigidity and enhanced resistance against forced entry.

One of the standout features of this security cabinet is its locking mechanism. It is operated by a standard Euro half cylinder, making it incredibly easy to integrate into an existing master key system or rekey to match your current

security setup.

With a generous 140mm depth, it easily accommodates larger padlocks and multi-key bunches without jamming. The cabinet comes complete with 50 colour-coded hooks, matching key tags, and is supplied with 3 keys, ensuring you have everything needed to establish an efficient and secure key management system from day one.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11950
- **External Dimensions:** 550mm (H) x 380mm (W) x 140mm (D)
- **Weight:** 16kg
- **Capacity:** 50 hooks
- **Locking Mechanism:** Euro Half Cylinder
- **Keys Supplied:** 3
- **Finish:** Grey powder coated
- **Barcode:** 5056240107714

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
