Specification Summary

Brand	Abus
Product type	Combination

Product Description

The ABUS 158KC Series Combination Open Shackle Padlock is a robust and versatile security solution designed for securing medium-value items or areas at average risk of theft. Featuring a tough zinc die-cast body and a hardened steel shackle, it offers dependable protection for lockers, toolboxes, cupboards, and sports equipment.

The standout feature of the 'KC' (Key Control) series is its integrated master key override function. This allows supervisors or administrators to easily open the padlock and retrieve or reset lost codes using an override master key (sold separately). This makes it an ideal, cost-effective, and sustainable choice for schools, leisure centres, and commercial locker rentals.

This padlock is available with either a 3-wheel or 4-wheel combination mechanism, with different master key suites (AP050 or AP051) and weights (176g or 177g). Please choose your preferred options from the selection below.

Technical Specifications

- **Body Width:** 45mm
- **Body Depth:** 19mm

- **Shackle Diameter:** 6mm
- **Horizontal Clearance:** 20mm
- **Vertical Clearance:** 25mm
- **Shackle Material:** Hardened steel
- **Body Material:** Zinc die-cast
- **Mechanism:** 3-wheel or 4-wheel resettable combination (please choose from the options below)
- **Keying:** Master keyed (AP050 or AP051 suites available below)
- **Weight:** 176g or 177g (depending on option chosen below)

Key Features

- **Key Control (KC) Override:** Allows administrators to override the combination and retrieve lost codes using a master key (sold separately)
- **Resettable Combination:** Set and reset your own personalised PIN code
- **Durable Construction:** Tough zinc die-cast body with a hardened steel shackle to resist hacksaw attacks
- **Ideal for Shared Environments:** Perfect for school lockers, gyms, sports clubs, and toolboxes
- **Sustainable & Cost-Saving:** Reusable design avoids the need to replace padlocks when codes are forgotten

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
