Specification Summary

Brand	Abus
Product type	Combination

Product Description

The ABUS 180IB/50 is a highly durable, weatherproof combination padlock designed for outdoor use, particularly in severe weather conditions such as coastal areas, ports, or marine environments. It features a solid forged brass body and a high-quality stainless steel shackle, offering exceptional resistance to corrosion and rust.

With its 4-digit resettable combination mechanism, you can easily set and reset your own custom PIN, eliminating the need for keys. The internal components are made from non-corrosive materials, ensuring long-lasting reliability and smooth operation. This padlock is ideal for securing medium-value assets, gates, lockers, toolboxes, sheds, and boats where there is an average risk of theft. It also features a precision locking mechanism with enhanced protection against manipulation.

Technical Specifications

- **Body Width:** 53mm
- **Body Depth:** 25mm
- **Shackle Diameter:** 8mm
- **Horizontal Clearance:** 25mm
- **Vertical Clearance:** 25mm
- **Weight:** 290g
- **Locking Mechanism:** 4-digit resettable combination
- **Body Material:** Solid forged brass
- **Shackle Material:** Stainless steel
- **Manufacturer Reference:** 180IB/50 C

Key Features

- **Weatherproof Design:** Solid forged brass body and stainless steel shackle provide maximum corrosion resistance, making it ideal for marine and coastal environments.
- **Keyless Convenience:** 4-digit resettable combination allows you to set and change your own custom PIN code.
- **Rust-Free Internals:** Non-corrosive inner components ensure reliable, long-lasting performance in harsh outdoor conditions.
- **Manipulation Protection:** Features a precision locking mechanism designed to resist tampering and unauthorized opening.
- **Versatile Security:** Perfect for securing gates, sheds, lockers, toolboxes, vehicles, and boats.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
