Specification Summary

Brand	Asec
Product type	Rim Cylinders

Product Description

The Asec Kite Rim Cylinder is a high-security rim cylinder designed to complement the Asec Kite range of Kitemarked euro double and key & turn cylinders. Because all cylinders in the Asec Kite range share a common key profile, they can be keyed alike to operate with a single key for ultimate convenience across your property.

This Police-approved, Secured by Design cylinder offers robust protection against common forced entry methods. It features a BKP (Bump Key Protection) device as standard to resist lock bumping, a special driver profile for enhanced pick resistance, and a drill-resistant configuration.

This cylinder is available in multiple finishes, including Nickel Plated and Satin Brass. Please select your preferred finish and manufacturer reference from the options below.

Technical Specifications

- **Cylinder Type:** Rim Cylinder
- **Cylinder System:** Asec Kite
- **Mechanism:** 6 Pin
- **Standards:** BS EN 1303:2005, Secured by Design
- **Fire Tested:** Grade B
- **Keys Supplied:** 3
- **Keying:** Keyed to differ (in-house key cutting and keying alike available)

Key Features

- **Secured by Design:** Police approved specification for trusted home security.
- **Shared Profile:** Can be keyed alike with other cylinders in the Asec Kite range.
- **Bump Resistant:** Fitted with a BKP device as standard to resist bumping attacks.
- **Pick Resistant:** Special driver profile provides enhanced resistance to lock picking.
- **Drill Resistant:** Configuration designed to defend against drilling.
- **Multiple Finishes:** Available in Nickel Plated and Satin Brass finishes (please choose from the options below).

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
