## Product Description

The ABUS 183AL/45 Weather Resistant Combination Padlock is a robust and highly durable security solution designed specifically for outdoor use. Featuring a solid aluminium body combined with stainless steel internal components and code dials, this padlock offers exceptional resistance to harsh weather conditions and corrosion. It is ideally suited for securing medium-value items or areas with an average risk of theft, such as gates, doors, lockers, toolboxes, sheds, and barriers.

Equipped with a secure 5-wheel combination mechanism, the padlock provides up to 100,000 individually resettable code combinations, offering high-level security without the need for keys. It also features a double-bolted shackle for enhanced resistance against pulling and twisting, alongside a precision locking mechanism that provides superior protection against picking. For added versatility, the shackle is interchangeable, allowing you to easily adapt the lock to your specific requirements.

This padlock is available in multiple packaging options, including Boxed and Visi (visual) pack, with corresponding barcodes and manufacturer references. Please choose your preferred option from the selection below.

## Technical Specifications

- **Brand:** ABUS
- **Body Width:** 47mm
- **Body Depth:** 20mm
- **Horizontal Clearance:** 24mm
- **Vertical Clearance:** 36mm
- **Shackle Diameter:** 8mm
- **Shackle Finish:** Steel
- **Mechanism:** 5-Wheel Combination (5-digit)
- **Finish:** Silver
- **Weight:** 226g
- **Packaging:** Available in Boxed or Visi options (please select below)
- **Manufacturer Reference:** 88699 or 88699 (183AL/45) (depending on option selected below)
- **Barcode:** 4003318404870 or 4003318886997 (depending on option selected below)

## Key Features

- **Weather Resistant:** Solid aluminium body with stainless steel internal components and code dials for excellent corrosion resistance.
- **High Security Combination:** 5-wheel resettable combination mechanism offering 100,000 possible code variations.
- **Double Bolted Shackle:** Provides additional security and resistance against pulling and twisting attacks.
- **Interchangeable Shackle:** Allows the shackle to be swapped out easily to suit individual requirements.
- **Picking Protection:** Precision locking mechanism offers high resistance against picking and manipulation.
- **Versatile Use:** Ideal for securing medium-value items outdoors, such as gates, sheds, lockers, and toolboxes.

## Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
