Product Description

The ABUS 37RK Series Granit closed shackle padlock is a premier high-security locking solution engineered to withstand severe physical attacks. Featuring a solid, through-hardened steel alloy body and an 11mm removable shackle, this padlock offers exceptional resistance against drilling, pulling, sawing, and bolt-cutter attacks. It is certified to CEN Grade 4 security standards, making it ideal for securing high-value items, gates, warehouses, and containers.

At the heart of this padlock is the renowned ABUS Plus disc cylinder, which provides over 250,000 key differs and is highly resistant to manipulation and picking. The RK (rekeyable) design allows the cylinder to be rekeyed to match existing keys for added convenience. For long-lasting outdoor performance, the padlock is finished with a cataphoretic coating and rust-free internal components, offering up to 40 years of corrosion protection. Each lock is supplied with two keys (one featuring an integrated LED torch) and a key code card for easy duplication.

This padlock is available in multiple configurations to suit your security requirements. You can choose between Keyed Alike or Keyed To Differ options, as well as Boxed or Visi packaging, with boxed quantities of 2 or 3 depending on the selected manufacturer reference and barcode. Please select your preferred options from the

choices below.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
