Specification Summary

Brand	Abus
Product type	Long Shackle

Product Description

The ABUS 65IB/40HB63 is a high-quality, long-shackle padlock from the best-selling ABUS 65 series. Designed to offer reliable security and exceptional weather resistance, this padlock features a solid brass body combined with a durable stainless steel shackle (IB). This combination makes it highly resistant to corrosion, making it an ideal choice for outdoor use, coastal environments, or securing items in damp conditions.

Inside, the padlock is built with non-corrosive internal components and a precision pin tumbler cylinder. To protect against manipulation and picking, it is equipped with anti-pick mushroom pins. The extended 63mm vertical clearance of the long shackle provides the extra reach needed to secure hard-to-reach areas, chains, gates, and outdoor equipment.

This padlock is supplied keyed to differ, meaning each lock operates on its own unique key. It comes in a visible (Visi) pack, ready for immediate installation.

Technical Specifications

- **Body Width:** 40mm

- **Body Depth:** 15mm
- **Shackle Diameter:** 6.5mm
- **Vertical Clearance:** 63mm
- **Horizontal Clearance:** 22mm
- **Body Material:** Solid brass
- **Shackle Material:** Stainless steel
- **Keying:** Keyed to differ
- **Manufacturer Reference:** 65IB/40HB63 C

Key Features

- **Corrosion Resistant:** Stainless steel shackle (IB) and non-corrosive internal components provide maximum resistance to rust and weather.
- **Solid Brass Body:** Durable and robust solid brass construction for reliable security.
- **Long Shackle Design:** Extended 63mm vertical clearance makes it ideal for securing hard-to-reach areas, chains, and gates.
- **Anti-Pick Protection:** Precision pin tumbler cylinder features anti-pick mushroom pins to resist manipulation.
- **Keyed to Differ:** Supplied with its own unique keys for individual security.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
