Specification Summary

Brand	Unknown
Product type	Rim Cylinders

Product Description

The Avocet ABS Rim Cylinder is a high-security replacement cylinder designed to retrofit most standard nightlatches, including Yale, ERA, and Union. It offers exceptional resistance against common forced entry methods such as drilling, picking, and lock bumping, providing a robust upgrade to your home security.

For ultimate convenience, these cylinders can be keyed alike to other locks within the ABS range, including ABS anti-snap euro cylinders, single euro cylinders (ideal for garage doors), and ABS padlocks. This allows you to operate multiple doors and locks around your property using just a single key.

Available in a choice of polished brass or chrome finishes, you can also select between a standard bolt-through fitting or a screw-in threaded body version to suit your existing setup. Please choose your preferred finish and fitting type from the options below.

Keyed Alike Ordering Note: Keyed alike lock sets are supplied with 3 keys for the entire set. If you require additional keys, please add them to your order. If you would like these locks built to your existing ABS key codes, please add one key alike charge per lock and enter your codes in the dispatch notes at checkout (locks built to existing codes do not include keys as standard). Please allow 3 to 5 working days for custom keyed alike orders to be built.

Technical Specifications

- **Compatibility:** Retrofits most standard nightlatches (including Yale, ERA, Union, etc.)
- **Fitting Options:** Standard bolt-through or screw-in threaded body (please choose from the options below)
- **Finishes:** Brass or Chrome (please choose from the options below)
- **Keying Options:** Keyed to differ, keyed alike, or built to existing ABS key codes

Key Features

- **High-Security Protection:** Engineered to resist common forced entry methods including drilling, picking, and lock bumping
- **One-Key Convenience:** Can be keyed alike to ABS anti-snap euro cylinders, single euro cylinders, and ABS padlocks
- **Easy Retrofitting:** Ideal replacement cylinder for standard wooden door rim locks and nightlatches

- **Flexible Ordering:** Keyed alike sets supplied with 3 keys per set, with options to add extra keys or build to existing codes
