Product Description

The ABUS 72LL/40 Anti-Rust Love Lock Padlock is a beautifully crafted, highly durable padlock designed to symbolise eternal attachment. Popularly used on bridges, fences, and gates at tourist attractions worldwide, this padlock is constructed from 100% aluminium, making it fully corrosion-resistant and ideal for long-term outdoor exposure.

One side of the padlock features an embossed design, while the other side is left blank, providing a large, flat surface that is perfect for custom engraving of names, messages, or special dates. It features a double-bolted mechanism for secure locking and a key-retaining function, ensuring the key cannot be removed while the padlock is open.

This padlock is available in a wide selection of vibrant finishes, including Black, Fresh Green, Green, Lilac, Orange, Pink, Turquoise, and Yellow. Please choose your preferred finish, barcode, and manufacturer reference from the options below.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
