Product Description

The LOCINOX 3012 Dummy Cylinder is a high-quality blind cylinder designed to disable the deadbolt locking action on compatible gate locks. By preventing the lock from being locked down, it ensures continuous, convenient access, making it an ideal choice for emergency exits and panic gate setups.

This dummy cylinder is specifically designed for use with the Locinox Push Pad Handle. It features a robust, weather-resistant construction with a clean silver finish, ensuring reliable performance even in harsh outdoor environments. Installing this blind cylinder provides a simple yet highly effective solution for maintaining unrestricted egress on your gates.

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is “make the gate hardware the least annoying part of the job,” with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as “over 30 years” in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
