## Product Description

The ABUS 767 Wall Mounted Key Garage is a secure and convenient solution for storing keys and plastic access cards. Designed for shared access, it is ideal for holiday homes, care workers, tradespeople, or multi-user domestic access.

Constructed with a robust solid metal housing and a zinc die-cast locking cover, this key safe offers strong resistance against tampering. It features a user-friendly push-button keypad that allows you to set a custom, resettable code of up to 10 digits. The code sequence is non-sequential, making it easy to enter.

To protect the keypad from the elements, the Key Garage is fitted with a sliding plastic cover that shields the mechanism from dust, dirt, and weather. It is designed for wall mounting in indoor areas or protected outdoor locations.

## Technical Specifications

- **Brand:** Abus
- **Manufacturer Reference:** 767 C
- **External Height:** 120mm
- **External Width:** 82mm
- **External Depth:** 46mm
- **Weight:** 741g
- **Finish:** Silver
- **Locking Mechanism:** Push button keypad (up to 10-digit code)
- **Mounting Type:** Wall mounted

## Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
