Is Cylinder

Product Description

The Mul-T-Lock Integrator Euro Double Cylinder is a high-quality, reliable locking solution designed for both domestic and commercial applications. Featuring a high-precision 7-pin tumbler mechanism, this double cylinder offers key operation from both sides of the door, making it ideal for standard entry doors.

One of the standout benefits of the Integrator platform is its advanced key control. The patented key system ensures that keys cannot be copied without your knowledge. Duplicate keys can only be cut by presenting the unique key registration card supplied with the cylinder, providing landlords and business owners with complete peace of mind against unauthorised access.

This versatile cylinder is available in a variety of lengths and finishes to suit your existing door hardware. It can also be keyed alike or integrated into a master key system, allowing you to operate multiple locks - such as padlocks, rim cylinders, and other euro cylinders - with a single key. Please select your required size and finish from the options below.

Technical Specifications

- **Cylinder Type:** Euro profile double cylinder (key operated from both sides)
- **Locking Mechanism:** High-precision 7-pin tumbler system
- **Key Security:** Patented key control with unique key registration card
- **Key Design:** Reversible nickel silver keys
- **System Compatibility:** Can be keyed alike or master-keyed with other Mul-T-Lock Integrator products

Key Features

- **Advanced Key Protection:** Patented key system prevents unauthorised key duplication, as keys can only be cut upon presenting the security registration card.

- **Flexible Keying Options:** Supports Keyed Alike and Master Key systems, allowing a single key to open multiple doors, padlocks, or utility locks.
- **Dual-Level Integration:** Can be combined with Mul-T-Lock 7x7 cylinders to create a cost-effective, dual-level security system.
- **User-Friendly Design:** Reversible key entry ensures smooth and easy operation from either side of the door.
- **Versatile Selection:** Available in multiple lengths and finishes to perfectly match your door requirements (please select from the options below).

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
