Specification Summary

Brand	Abus
Product type	Key Safe

Product Description

The ABUS 787 BIG Key Garage is a secure, wall-mounted key safe designed to provide shared access to keys and plastic cards. Sharing the same external footprint as the standard 787 model, the "BIG" version features a flattened internal mechanism that maximises storage space. This allows it to comfortably hold up to 30 keys or 50 cards, making it perfect for multi-user access, rental properties, care workers, or domestic use.

Constructed with a solid metal housing and a zinc die-cast locking cover, this key safe offers robust protection against unauthorised access. It features a 4-digit combination lock that can be easily reset to a code of your choice, allowing you to change access permissions whenever required. For added convenience, the interior includes a removable clip-in hook to keep bunches of keys organised. A protective plastic cover with a sliding mechanism shields the dials from dirt and harsh weather, making it suitable for both indoor and protected outdoor installations.

Technical Specifications

- **Brand:** ABUS
- **Model:** 787 BIG Key Garage
- **Mechanism:** 4-wheel resettable combination
- **External Dimensions:** 120mm (H) x 62mm (W) x 83.5mm (D)
- **Internal Dimensions:** 91.5mm (H) x 62.5mm (W) x 55mm (D)
- **Finish:** Black & Silver
- **Weight:** 936g

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
