Product Description

The Radar Key is an essential tool for anyone requiring access to locked public disabled toilets across the UK. Operating under the National Key Scheme (NKS), this universal key provides independent, reliable access to over 10,000 accessible toilets located in shopping centres, train stations, pubs, cafes, and parks nationwide.

Many public accessible toilets are kept locked to protect them from vandalism and misuse, ensuring they remain clean and functional for those who truly need them. Having your own Radar Key allows you to unlock these facilities quickly, discreetly, and independently, without the need to locate staff or ask for assistance.

Designed with accessibility in mind, the key features an ergonomic, easy-to-turn head that provides extra leverage, making it simple to operate even for individuals with limited hand strength or dexterity. It is a vital companion for peace of mind when travelling or running everyday errands.

Technical Specifications

- **Scheme:** National Key Scheme (NKS)
- **Lock Compatibility:** Fits standard NKS and Radar-approved toilet locks
- **Key Type:** Mortice-style key

- **Coverage:** Access to over 10,000 locked public toilets across the UK

Key Features

- **Independent Access:** Unlocks thousands of accessible public toilets nationwide, including in transport hubs, shopping centres, and public parks.
- **Dignity and Convenience:** Eliminates the need to ask staff for keys or explain personal health circumstances.
- **Ergonomic Design:** Large, easy-grip head provides extra leverage for users with limited hand dexterity.
- **Durable Construction:** Made from robust materials designed to withstand frequent use without bending or breaking.
- **Peace of Mind:** An essential daily companion for individuals with physical disabilities, mobility issues, or hidden health conditions.
