Specification Summary

Brand	Supra
Product type	Key Safe

Product Description

The Supra 001409 Key Safe is a reliable, mechanical key storage solution designed for secure external mounting. Ideal for providing access to carers, family members, or tradespeople, this compact key safe eliminates the need to hide spare keys under a doormat or flower pot.

Featuring a robust 10 push-button keypad, it offers up to 1,024 possible combinations, allowing you to set and change your own unique code easily. The safe is constructed from rust-proof zinc alloy, ensuring long-lasting durability against the elements, and comes complete with a weatherproof cover to protect the keypad from dirt and harsh weather.

Depending on your requirements, this key safe is available in multiple configurations. You can choose between a Grey finish (supplied with a weatherproof cover) or a Beige finish (which includes both a weatherproof cover and a backplate). The external dimensions range from 104mm to 108mm in height, 58mm to 64mm in width, and 49mm to 51mm in depth, with internal storage depths of 25mm to 32mm. Please select your preferred finish, dimensions, and mounting options from the choices below.

Technical Specifications

- **Material:** Zinc alloy construction
- **Mechanism:** 10-digit push-button digital keypad
- **Combinations:** 1,024 possible code combinations
- **Capacity:** Holds 4 to 5 cylinder keys or 1 to 2 mortice keys (depending on key size)

Brand Profile

Supra

Supra is a well-known **key safe / key management** brand in the UK trade, most associated with the **C500 / C500 Pro** style **push-button mechanical key safes** used for managed access (care providers, trades, landlords, holiday lets, facilities teams) where you need controlled entry without leaving a spare key under the world's most obvious plant pot.

In the UK, Supra is closely tied to **Supra (UK) Ltd**, which trades as **The Key Safe Company** (their distribution arm, active since **1996**) and positions itself as a leading UK access-management specialist bringing brands like **Supra™** and **KeySafe™** to market.

What Supra is known for

- **High-security mechanical key safes** (not "smart", not app-based — just robust, outdoor-rated, code access).
- Flagship units like the **Supra C500 Pro** are widely marketed as **"police preferred"** and sold as high-attack-resistance models with installer-friendly features (capacity for multiple keys, weather covers, clutch/anti-force mechanisms depending on model/retailer).
- Some listings explicitly reference **LPCB LPS 1175 Issue 8 A5** attack testing for the C500 Pro line (that's "this has been tested by people whose hobby is breaking things").

Important "don't-mix-the-brands" note

There's also **Supra Systems** in the US market — the electronic lockbox / credential ecosystem used heavily in real estate — which sits under **Honeywell** after Honeywell completed the acquisition of **Carrier's Global Access Solutions** business (which included Supra). Same name, different universe: one is property access lockboxes for agents; the other is the familiar UK wall-mounted key safe world.
