Specification Summary

Brand	Abus
Product type	Combination

Product Description

The ABUS 78KC Series Dial & Key Over-Ride Combination Open Shackle Padlock is a highly durable, heavy-duty security solution designed for environments such as schools, colleges, factories, and gyms. It features a tough steel body and a double-bolted, hardened steel shackle that provides robust resistance against hacksaw attacks.

Equipped with a cataphoretic coating and rust-free internal components, this padlock is built to withstand the elements, offering up to 40 years of corrosion protection for both indoor and outdoor use. Security is further enhanced by a patent-pending anti-shim mechanism that protects against manipulation.

The standout feature of the 78KC series is its master key override cylinder on the back. This allows supervisors or managers to quickly open the padlock using a master key (sold separately) if a user forgets their combination.

This padlock is available with different master key suites, weights, and manufacturer references. Please choose your required option from the variants listed below.

Technical Specifications

- **Brand:** Abus
- **Body Width:** 48mm
- **Body Depth:** 33mm
- **Shackle Diameter:** 7mm
- **Horizontal Clearance:** 21mm
- **Vertical Clearance:** 21.5mm
- **Shackle Finish:** Steel
- **Mechanism:** Combination (3-digit dial)
- **Keying:** Master Keyed (Master keys sold separately)
- **Combinations:** Up to 2,000 different combinations
- **Weight:** 194g or 195g (please choose from the options below)
- **Manufacturer Reference:** 78KC/50 KC 507 Black or 78KC/50 KC 510 Black (please choose from the options below)
- **Notes:** Master Keyed - KC507 or Master Keyed - KC510 (please choose from the options below)
- **Barcode:** 4003318476709 or 4003318476952 (please choose from the options below)

Key Features

- **Master Key Override:** Integrated cylinder on the back allows administrative opening if the code is forgotten (master keys sold separately)
- **High Corrosion Resistance:** Cataphoretic coating and rust-free components provide up to 40 years of corrosion protection

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
