Product Description

The ABUS 83/60-5 Rock Series 2 Open Shackle Steel Padlock is an exceptionally robust, high-security padlock designed to protect high-value assets in demanding environments. Constructed with a solid hardened steel body and a 12mm hardened steel shackle, it offers outstanding resistance against physical attacks, drilling, and pulling.

This padlock is supplied as a 'body only' unit (without a cylinder or keys), making it the perfect choice for integrating into your existing keying or master key systems. Depending on your security requirements, you can choose from multiple cylinder compatibility options below, including versions that accept a 40mm Euro half cylinder, a Scandinavian oval cylinder, or a figure 8 interchangeable cylinder.

Additionally, options are available with either a standard key or dimple mechanism, with total weights ranging from 732g to 814g. Please select your preferred configuration from the options below to suit your specific security setup.

Technical Specifications

- **Body Width:** 60mm

- **Body Depth:** 28mm
- **Height:** 123mm
- **Shackle Diameter:** 12mm
- **Horizontal Clearance:** 27.5mm
- **Vertical Clearance:** 38mm
- **Body Material:** Hardened Steel
- **Shackle Material:** Hardened Steel
- **Finish:** Chrome Plated
- **Standards:** CEN Grade 5
- **Key Retaining:** Yes
- **Keys Supplied:** 0 (Body only)
- **Cylinder Compatibility:** Accepts 40mm Euro Half Cylinder, Scandinavian oval cylinder, or figure 8 interchangeable cylinder (please select from the options below)
- **Mechanism:** Standard Key or Dimple (please select from the options below)
- **Weight:** 732g to 814g (please select from the options below)
- **Manufacturer Reference:** Varies by model (please select from the options below)
- **Barcode:** Varies by model (please select from the options below)

Key Features

- **Heavy-Duty Security:** Solid hardened steel lock body and shackle provide maximum protection against forced entry.
- **CEN Grade 5 Rated:** Certified to high-security standards for peace of mind in commercial and industrial applications.
- **Flexible Integration:** Supplied without a cylinder, allowing you to easily key the padlock to match your existing master key or security system.
- **Corrosion Resistant:** Chrome plated finish helps protect the lock against harsh weather and environmental conditions.
- **Key Retaining Safety:** The key retaining design ensures the padlock cannot be left unlocked accidentally, as the key can only be removed when the shackle is locked.
- **Versatile Options:** Available in multiple configurations to suit Euro half cylinders, Scandinavian oval cylinders, or figure 8 interchangeable cores.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
