Product Description

The ABUS 83WP Series Weatherproof Steel Open Shackle Padlock is a heavy-duty, high-security padlock designed to withstand the harshest outdoor environments. Featuring a solid hardened steel alloy body and shackle, this padlock offers exceptional resistance against physical attacks, including lever and torsion attempts, thanks to its robust ball bearing locking mechanism.

To ensure maximum weather protection, the 83WP Series is equipped with a durable plastic jacket, integrated drainage channels, and a protective cap to shield the cylinder from moisture, dust, and dirt. The shackle is finished

with a specialized Nano Protect coating, providing superior corrosion resistance.

This highly versatile padlock is fully rekeyable, allowing the cylinder to be easily swapped or adapted to existing key systems. It can also be configured as key-retaining or non-key-retaining depending on your security requirements.

Available in multiple sizes and configurations, you can choose from body widths of 56.5mm or 65mm, shackle diameters of 8mm or 11mm, and security standards ranging from Sold Secure Bronze to Silver. Keyed alike and keyed to differ options are also available. Please select your preferred specifications from the options below.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
