Specification Summary

Brand	Abus
Product type	Open Shackle

Product Description

The ABUS 83WPIB Series "Submariner" Marine Padlock is designed to offer exceptional security and extreme weather resistance in the harshest environments, such as coastal areas, ports, and marine vessels. Featuring a solid brass lock body fully encased in a protective plastic jacket, this padlock is engineered to resist corrosion, dirt, and moisture. Its high-quality stainless steel shackle and double ball bearing locking mechanism provide robust resistance against physical attacks, including pulling and torsion.

Equipped with a precision pin tumbler cylinder featuring anti-pick mushroom pins, the ABUS 83WPIB offers excellent security against manipulation. The rekeyable mechanism allows the padlock to be easily adapted to existing key suites or changed to a new key. Additionally, the integrated Z-bar allows the padlock to be configured as either key-retaining or non-key-retaining depending on your requirements.

This padlock is available in multiple configurations. Please choose your preferred keying option (Keyed Alike or Keyed to Differ), packaging type (Boxed or Visi), and manufacturer reference from the options below.

Technical Specifications

- **Body Width:** 56.5mm
- **Body Height:** 97.5mm
- **Body Depth:** 35.5mm
- **Shackle Diameter:** 8mm
- **Shackle Material:** Stainless Steel
- **Horizontal Clearance:** 23.5mm
- **Vertical Clearance:** 27.5mm
- **Standards:** Sold Secure (Bronze)
- **Key Retaining:** Yes (convertible)
- **Mechanism:** Rekeyable pin tumbler with anti-pick mushroom pins
- **Weight:** 396g - 407g

Key Features

- **Extreme Weather Resistance:** Solid brass body and stainless steel shackle with a protective plastic cover and keyway cap to seal out water and dirt.
- **Marine Grade Protection:** Specially designed for marine, coastal, and harsh outdoor environments.
- **Double Ball Bearing Locking:** Resists pulling, lever, and torsion attacks.
- **Flexible Keying Options:** Available in Keyed Alike or Keyed to Differ options to suit individual or multi-site security setups.
- **Rekeyable Cylinder:** Easily integrated into existing master key or keyed alike suites.
- **Convertible Functionality:** Allows easy switching between key-retaining and non-key-retaining functions.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
