Product type	Open Shackle

Product Description

The ABUS 85 Series Brass Open Shackle Padlock is a durable and reliable security solution, featuring a solid brass lock body and high-quality, rust-free internal components. The hardened steel shackle is treated with a NANO PROTECT™ coating to provide extreme corrosion resistance, making it suitable for a wide range of domestic and commercial applications.

For ease of use, the padlock features an automatic locking mechanism, allowing you to secure the lock simply by pushing down the shackle without needing the key. Security is enhanced by a precision pin tumbler cylinder equipped with anti-pick mushroom pins to resist manipulation.

This versatile padlock is available in multiple body widths, shackle diameters, and clearances, with options for either Keyed Alike or Keyed To Differ configurations. Please choose your preferred size, keying option, and packaging from the options below.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
