Product Description

The ABUS 92 Series Steel Clad Brass Sliding Shackle Shutter Padlock is a robust, compact security solution designed specifically for confined spaces and high-security applications. Commonly known as a shutter lock, this monoblock padlock is ideal for securing roller shutters, vending machines, gates, and sea containers where traditional curved shackle padlocks are too bulky.

Constructed with a solid brass body encased in a heavy-duty hardened steel jacket, it offers exceptional resistance to drilling, pulling, and physical force. The straight sliding shackle is made from a through-hardened steel alloy and is designed to rotate when attacked, effectively neutralizing sawing attempts. Inside, a precision pin tumbler cylinder with anti-pick mushroom pins provides reliable protection against manipulation.

This padlock is available in multiple body widths (67mm or 78mm), body heights (58mm or 65mm), and depths (28mm or 30mm). Depending on your security needs, you can choose a shackle diameter of either 10mm or 12mm, with corresponding horizontal clearances of 33mm or 37mm, and vertical clearances of 14mm or 17mm. It is offered in both Keyed Alike and Keyed To Differ configurations, with weights ranging from 581g to 872g, and a choice of Boxed or Visi packaging. Please select your required specifications from the options below.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and “preventative” security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **“Iron Rock,”** and the business expanded from there into a broad security portfolio.

Today, ABUS’s headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you’ll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the “German engineering, don’t mess about” identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
