Requires Cylinder

Product Description

The ABUS 93RK/85 Rock Steel Sliding Bolt Shutterlock is a heavy-duty, body-only monobloc padlock designed for high-security applications where space is limited. Its compact, sliding-bolt design makes it ideal for securing roller shutters, shipping containers, and warehouses where traditional padlocks are too bulky or difficult to fit.

Constructed with a hardened special steel body and shackle, this padlock features ABUS's advanced Nano Protect™ coating to deliver exceptional resistance against both physical attacks and harsh weather conditions.

As a body-only padlock, it is supplied without a cylinder, making it perfect for integrating into an existing master key or keyed-alike system. It is designed to house a Scandinavian oval cylinder, with options available to suit either conventional or reversible key systems. Please choose your required cylinder compatibility, manufacturer reference, and barcode from the options below.

Technical Specifications

- **Body Width:** 85mm
- **Body Height:** 70mm
- **Body Depth:** 29mm
- **Shackle Diameter:** 12mm

- **Horizontal Clearance:** 24.5mm
- **Vertical Clearance:** 18.5mm
- **Body Material:** Hardened Steel
- **Shackle Finish:** Hardened Steel
- **Finish:** Silver
- **Weight:** 955g
- **Keys Supplied:** 0 (Body Only)
- **Cylinder Compatibility:** Accepts Scandinavian oval cylinder (Conventional or Reversible key systems available - please choose from the options below)
- **Manufacturer Reference:** 64308 or 67491 (please choose from the options below)
- **Barcode:** 4003318643088 or 4003318674914 (please choose from the options below)
- **Packaging:** Boxed

Key Features

- **Body-Only Design:** Supplied without a cylinder, allowing easy integration into existing Scandinavian oval keying systems.
- **Hardened Steel Construction:** Lock body and sliding bolt are made from hardened special steel for maximum attack resistance.
- **Nano Protect™ Coating:** Provides superior corrosion resistance, making it ideal for outdoor and industrial environments.
- **Sliding Bolt Mechanism:** Monobloc design with a straight sliding bolt, perfect for tight spaces and shutter doors.
- **Versatile Compatibility:** Available in options to suit either conventional or reversible key system cylinders (please select below).

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
