Specification Summary

Brand	Abus
Product type	Aluminium

Product Description

The ABUS Titalium 64TI Series Adjustable Long Shackle Padlock offers a highly versatile security solution, allowing you to extend or contract the shackle to suit your specific application. Featuring a removable and adjustable shackle with a vertical clearance ranging from 60mm to 150mm, it is ideal for securing locking points that are further apart, such as gates, toolboxes, and chains.

Constructed from ABUS's innovative TITALIUM™ special aluminium alloy, this padlock provides a high level of security while weighing approximately 30% less than traditional brass locks. The hardened steel shackle is enhanced with a NANO PROTECT™ coating for superior corrosion resistance, while the paracentric key profile and double-bolted shackle offer excellent protection against tampering and forced entry. Finished in a modern stainless steel look, it combines strength, durability, and lightweight convenience.

Technical Specifications

- **Body Width:** 50mm
- **Body Depth:** 17mm
- **Shackle Diameter:** 8mm
- **Vertical Clearance:** 60mm to 150mm (adjustable)
- **Horizontal Clearance:** 28mm
- **Material:** TITALIUM™ special aluminium body, hardened steel shackle
- **Keying:** Keyed to differ
- **Keys Supplied:** 2
- **Weight:** 281g
- **Manufacturer Reference:** 64TI/50HB60-150

Key Features

- **Adjustable Shackle:** Fully removable and adjustable from 60mm to 150mm to suit a wide range of applications.
- **TITALIUM™ Body:** Innovative aluminium alloy construction provides high security with 30% less weight than traditional brass padlocks.
- **NANO PROTECT™ Coating:** Hardened steel shackle is coated for extreme corrosion and weather resistance.
- **Tamper Resistant:** Paracentric key profile and double-bolted shackle offer robust protection against manipulation.
- **Corrosion Protection:** Chrome-plated cylinder plug ensures long-lasting operation in outdoor environments.

Brand Profile

Abus

ABUS (short for **August Bremicker Söhne**) is a **German, family-owned security company** best known for making locks and "preventative" security products—the stuff designed to stop problems *before* they happen. The company was founded in **1924**, when August Bremicker and his sons started making padlocks in a cellar forge in **Volmarstein** (North Rhine-Westphalia). One of the earliest products was a padlock they called **"Iron Rock,"** and the business expanded from there into a broad security portfolio.

Today, ABUS's headquarters are in **Wetter (Ruhr), Germany**, and the company manufactures across multiple German and international sites (with major German production called out in places like **Rehe**).

ABUS operates as a group with well-known consumer lines spanning **padlocks and door/window security**, **alarm systems and video surveillance**, and also **bike security**—notably **bike locks** and **bike helmets** (a big reason you'll see the brand everywhere from hardware stores to cycling shops).

Brand-wise, ABUS leans hard into the "German engineering, don't mess about" identity: practical, durability-obsessed, and aimed at homes, businesses, and people trying to stop their stuff being yeeted into the void by opportunistic goblins.
