Brand	Adams Rite
Product type	Accessory

Product Description

The Adams Rite 0424 Long Faceplate is a high-quality, durable accessory designed specifically for use with the Adams Rite MS2200 deadlock series. Manufactured from premium satin anodised aluminium (SAA), this flat faceplate provides a clean, professional finish to your door installation while ensuring robust protection and alignment for your locking mechanism.

Featuring a 3-hole face fix design, the 0424 faceplate is easy to install and offers a secure, flush fit. With its dimensions of 267mm in height, 25mm in width, and a slim 3mm depth, it is the ideal solution for replacing worn faceplates or completing new metal door installations.

Whether you are upgrading existing commercial hardware or installing a new security setup, this genuine Adams Rite accessory delivers the reliability and precise engineering expected from an industry-leading brand.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
