Product Description

The Adams Rite 1000-11-32SA Long Spindle Thumb Turn is a high-quality, durable accessory specifically designed for narrow stile sliding patio doors. Featuring a parallel drive configuration, this thumb turn is engineered to operate Adams Rite MS1847 and MS1848 deadlocks and latches, providing a reliable and smooth locking mechanism.

Constructed with a robust zinc alloy turn lever and a stainless steel rectangular escutcheon, this unit is built to withstand regular use. The 47mm hardened steel spindle is plated for excellent corrosion resistance, ensuring long-lasting performance. Supplied in a clean Satin Anodised Aluminium (SAA) finish, it seamlessly blends with modern aluminium storefronts and narrow stile doors.

This thumb turn is supplied complete with a rectangular escutcheon for direct door mounting and is suitable for both deadlocking and self-latching configurations.

Technical Specifications

- **Brand:** Adams Rite
- **Manufacturer Reference:** 1000-11-32-682 (1000-11-32SA)
- **Spindle Length:** 47mm

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
