Specification Summary

Brand	Adams Rite
Product type	Cam & Handle

Product Description

The Adams Rite 4565 Cam & Handle is a reliable and durable door furniture solution designed specifically for use on narrow stile aluminium doors. Engineered to suit the Adams Rite 4700 series of deadlatches, this handle is ideal for low-traffic applications or doors where the latch is operated infrequently.

Constructed from robust cast aluminium with a clean anodised finish, it offers a modern aesthetic that seamlessly matches commercial storefronts. The unit is supplied complete with an activator cam plug that fits securely into the cylinder hole of the latch, ensuring smooth and dependable operation. Please note that this handle is designed solely for operating the latch mechanism and is not intended to be used as a door pull.

With its 6.35mm square spindle, it provides a straightforward retrofit or new installation option for commercial door hardware.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
