Specification Summary

Brand	Adams Rite
Product type	Accessory

Product Description

The Adams Rite 4580 Reversible Cam (Part Number: 4650) is a high-quality replacement cam plug designed to facilitate the operation of Adams Rite locksets and handle furniture. This versatile accessory is specifically designed to suit the Adams Rite 4568 lever handle and is compatible with the Adams Rite 1890 series of locks.

This cam plug features a fully reversible design, allowing it to be easily configured for either left-hand or right-hand door applications in the field. By removing a simple spring clip, the cam can be flipped and resecured, ensuring maximum adaptability on-site. It is securely held in place within the latch body using the standard cylinder set screw, providing a reliable connection between your handle furniture and the locking mechanism.

Technical Specifications

- **Brand:** Adams Rite

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
