Specification Summary

Brand	Adams Rite
Product type	Paddle Handle

Product Description

The Adams Rite 4591 Paddle Handle is an ergonomically designed exit device that offers a modern, low-profile alternative to traditional lever handles or door knobs. It is designed for simple push or pull operation, making it incredibly easy to open latched doors by simply moving in the direction of travel.

This paddle handle is specifically designed to suit the MS+1890 Latch/Deadlock series and is also compatible with the 4700/4900 series deadlatches (excluding the 4750). It is suitable for use on both aluminium and steel doors, making it a highly versatile choice for commercial and high-traffic environments.

The handle is available in multiple configurations, including different handed operations (Left Hand Pull, Left Hand Push, and Right Hand Push) and varying weights ranging from 710g to 830g. Please select your required handing, manufacturer reference, and barcode from the options below to ensure the correct fit for your door setup.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
