Specification Summary

Brand	Adams Rite
Product type	Paddle Handle

Product Description

The Adams Rite 4596 Paddle Handle is designed as an ergonomic alternative to traditional lever handles, providing a simple push or pull operation. Specifically engineered to suit the Adams Rite 4750 Series deadlatch, this high-quality paddle handle is ideal for use on aluminium and timber doors with a thickness of 45mm.

It is fully compliant with BS EN 179 standards when installed with the correct hardware, making it suitable for emergency escape doors in commercial and public buildings. The handle is supplied in a durable silver enamelled finish and is available in multiple handing options, including left-hand push, left-hand pull, right-hand push, and right-hand pull. Please select your required handing, manufacturer reference, and barcode from the options below to ensure the perfect fit for your door configuration.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
