Brand	Adams Rite
Product type	Accessory

Product Description

The Adams Rite 4720 Flat Faceplate is a high-quality replacement faceplate designed specifically for use with the Adams Rite 4720 ANSI deadlatch series. Manufactured from durable aluminium with a clean satin finish, this flat faceplate provides a professional, flush finish to your metal or timber door installations.

As a genuine Adams Rite accessory, it ensures a perfect fit and seamless compatibility with your existing 4720 ANSI deadlatch case. This faceplate is ideal for replacing worn, damaged, or missing faceplates, restoring both the appearance and smooth operation of your narrow-stile door locking system.

Please note that this is the flat faceplate variant, finished in Satin Aluminium.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
