Product Description

The Adams Rite 5100 Transom Closer Bracket (Manufacturer Reference: 5100-0130) is a high-quality F and L bracket kit designed specifically for use with Adams Rite concealed overhead transom door closers. It is fully compatible with the Adams Rite ARC-51, ARC-51N, and DC51-V series transom closers, ensuring a secure and reliable pivot point fixing.

This bracket kit is manufactured from durable aluminium and features a standard 70mm length. It is designed to provide a robust mounting solution for commercial and shopfront aluminium doors, allowing for smooth and controlled door operation. The kit is supplied complete with all necessary fixings, making installation straightforward and efficient for installers and locksmiths.

Whether you are installing a new overhead transom closer or replacing worn components, this genuine Adams Rite bracket kit offers the perfect fit and long-lasting performance.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
