Specification Summary

Brand	Adams Rite
Product type	Flush Bolts

Product Description

The Adams Rite 6201-6-12 Flat Flush Bolt is designed to secure the inactive (slave) leaf of a pair of aluminium doors. Morticed into the top and bottom of the door, a standard installation typically requires two flush bolts to ensure complete security. This model features a flat face profile and a durable satin chrome finish, blending seamlessly with modern architectural hardware.

The flush bolt is constructed with a robust die-cast zinc alloy body mechanism and a hardened steel bolt. It includes a zinc-plated steel rod and an anti-rattle sleeve to ensure smooth, quiet operation. For added security and a clean aesthetic, the operating lever remains completely hidden from view when the doors are closed.

Technical Specifications

- **Brand:** Adams Rite
- **Finish:** Satin Chrome
- **Body Length:** 143mm
- **Body Width:** 23mm
- **Depth:** 27mm
- **Screw Centres:** 129mm

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
