Specification Summary

Brand	Adams Rite
Product type	Flush Bolts

Product Description

The Adams Rite 6201-7-12 Radius Flush Bolt is a high-quality security solution designed specifically for securing the slave (passive) leaf of a pair of doors, making it ideal for aluminium door applications. For a standard and secure installation, two flush bolts are typically required, morticed into both the top and bottom of the door leaf.

Engineered with durability in mind, this flush bolt features a robust die-cast zinc alloy body mechanism and a radius forend. The hardened steel bolt is zinc-plated and fitted with an anti-rattle sleeve to ensure smooth, quiet operation. When the doors are fully closed, the operating lever is neatly hidden from view, maintaining a clean and seamless aesthetic.

Technical Specifications

- **Brand:** Adams Rite
- **Manufacturer Reference:** 1571102 / 6201-7-12
- **Finish:** Satin Chrome
- **Forend Type:** Radius
- **Body Length:** 145mm
- **Body Width:** 23mm

- **Body Depth:** 27mm
- **Screw Centres:** 129mm
- **Bolt Throw:** 18mm
- **Rod Dimensions:** 7mm x 265mm zinc-plated steel rod
- **Thread Length:** 220mm
- **Weight:** 230g
- **Pack Quantity:** 1

Key Features

- **Secure Slave Leaf Locking:** Designed specifically to secure the passive leaf of a pair of double doors.
- **Hidden Lever Action:** The operating lever is completely concealed when the doors are closed, providing a neat, flush finish.
- **Robust Construction:** Features a durable die-cast zinc alloy body mechanism and a hardened steel bolt.
- **Quiet Operation:** Zinc-plated bolt is equipped with an anti-rattle sleeve to prevent noise and movement.
- **Radius Forend:** Specifically styled with a radius faceplate to suit compatible door profiles.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
