Product Description

The Adams Rite Armlock 261 Series Slim Line Single Magnet is a high-quality, surface-mounted electromagnetic lock designed to facilitate secure remote access and exit control. Perfect for outward-opening aluminium, timber, or steel doors, this compact magnet combines clean aesthetics with reliable performance, making it an ideal choice for modern commercial and public buildings.

Operating on a fail-unlocked (fail-safe) basis, the lock ensures that doors automatically release in the event of a power failure to maintain safe emergency egress. It offers a robust magnetic holding force of at least 250kg (550lbs), providing dependable security during normal operation.

This model is available in both monitored and non-monitored versions, with corresponding manufacturer references 261-005 and 261-000. Please choose your preferred monitoring option and manufacturer reference from the options below to suit your specific access control requirements.

Brand Profile

Adams Rite

Adams Rite is a long-running American door-hardware brand best known as *“the Aluminum Hardware Authority”*—a specialist in locking and access hardware for **narrow-stile aluminum doors** (think storefronts, commercial entrances, glass-and-aluminum door systems).

The company’s core range covers **deadlocks and deadlatches**, **electric strikes**, **exit devices/panic hardware**, **trim**, and related cylinders/accessories—basically the mechanical and electromechanical guts that let commercial aluminum doors stay secure while still being code-compliant and usable.

Adams Rite is part of ASSA ABLOY, following ASSA ABLOY’s acquisition (announced and completed in **2006**). In ASSA ABLOY’s portfolio, Adams Rite is positioned as a strong, complementary brand in aluminum door applications.
