### Product Description

The Alpro 456 Lever Handle is an ergonomically designed and practical door handle, ideal for use on aluminium and steel doors. Supplied complete with a non-handed, field-reversible cam plug, it is specifically designed to work in conjunction with the Alpro 524510 deadlatch range of locks.

This high-quality handle is suitable for doors with a thickness of 44mm. It is available in both left-hand and right-hand configurations to suit your specific installation requirements. Please select your required handing and corresponding specification from the options below.

## Technical Specifications

- **Brand:** Alpro
- **Finish:** Satin Anodised Aluminium
- **Handing:** Left Hand or Right Hand (please choose from the options below)
- **Door Thickness:** Suitable for 44mm thick doors
- **Compatibility:** Designed for use with the Alpro 524510 deadlatch range
- **Weight:** 260g or 290g (please choose from the options below)
- **Manufacturer Reference:** 5245601 or 5245602 (please choose from the options below)
- **Barcode:** 5055120744025 or 5055120744032 (please choose from the options below)

## Key Features

- **Ergonomic Design:** Practical and comfortable lever handle shape.
- **Reversible Cam Plug:** Supplied with a non-handed cam plug that is easily reversible in the field.
- **Versatile Application:** Ideal for use on aluminium and steel doors.
- **Complete Kit:** Comes complete with the necessary cam plug for immediate integration with compatible deadlatches.

## Brand Profile

Alpro

**Alpro (Alpro Architectural Hardware)** is a UK supplier of **architectural door hardware and access-control components**, focused heavily on the **commercial aluminium door (OEM) market** and the wider **access control** environment. It operates as a **division of IEC Limited**, an **independent, family-owned** company founded in **1938** to supply quality mechanical components.

Alpro's catalogue spans both **mechanical** and **electro-mechanical** products: contemporary **pull handles**, **lever/paddle handles**, **deadlocks/deadlatches**, **cylinders**, **transom door closers**, and hardware like **flushbolts** and **armoured strikes**, alongside access-control staples such as **electric strikes**, **deadlocking/solenoid bolts**, **shearlocks**, **cabinet locks**, and **IP-rated keypads and exit switches**.

The company also highlights **BS EN ISO 9001:2015 approval**, technical support, CAD/design capability, and a stock-led operation aimed at quick dispatch - positioning Alpro as a practical "solve the door problem" brand for installers and fabricators rather than a consumer retail name.
