Specification Summary

Brand	Alpro
Product type	Paddle Handle

Product Description

The Alpro 459 Paddle Handle with Cam Plug is an ergonomically designed, practical solution for operating commercial doors. Supplied complete with a cam plug, this paddle handle is specifically designed to be used in conjunction with the Alpro 524510 deadlatch range of locks.

This high-quality handle is available in multiple handing configurations (including Pull To Left, Pull To Right, Push To Left, and Push To Right) and manufacturer references to suit your specific door setup. Please choose your required handing, manufacturer reference, and barcode options from the selection below.

Finished in a sleek Satin Anodised Aluminium, the Alpro 459 is suitable for 44mm thick doors. The included cam plug is non-handed and can be easily reversed in the field, providing excellent flexibility during installation.

Brand Profile

Alpro

Alpro (Alpro Architectural Hardware) is a UK supplier of **architectural door hardware and access-control components**, focused heavily on the **commercial aluminium door (OEM) market** and the wider **access control** environment. It operates as a **division of IEC Limited**, an **independent, family-owned** company founded in **1938** to supply quality mechanical components.

Alpro's catalogue spans both **mechanical** and **electro-mechanical** products: contemporary **pull handles**, **lever/paddle handles**, **deadlocks/deadlatches**, **cylinders**, **transom door closers**, and hardware like **flushbolts** and **armoured strikes**, alongside access-control staples such as **electric strikes**, **deadlocking/solenoid bolts**, **shearlocks**, **cabinet locks**, and **IP-rated keypads and exit switches**.

The company also highlights **BS EN ISO 9001:2015 approval**, technical support, CAD/design capability, and a stock-led operation aimed at quick dispatch - positioning Alpro as a practical "solve the door problem" brand for installers and fabricators rather than a consumer retail name.
