Specification Summary

Brand	Alpro
Product type	Cylinder - Screw In

Product Description

The Alpro 5218 Screw-In Mortice Hookbolt Case is designed to provide high-security deadlocking for a wide range of aluminium doors, including both swinging and sliding applications. It features a robust hookbolt constructed from stainless steel with a 5-ply laminated design. The case-hardened centre core is fitted with a hardened roll pin, offering excellent resistance against hacksaw attacks.

This lock case is designed to accept standard 1 5/32" screw-in key or thumbturn cylinders. Please note that this unit is supplied without a faceplate.

It is available in multiple backsets and case depths to suit your specific installation requirements. Please select your preferred options from the choices below.

Brand Profile

Alpro

Alpro (Alpro Architectural Hardware) is a UK supplier of **architectural door hardware and access-control components**, focused heavily on the **commercial aluminium door (OEM) market** and the wider **access control** environment. It operates as a **division of IEC Limited**, an **independent, family-owned** company founded in **1938** to supply quality mechanical components.

Alpro's catalogue spans both **mechanical** and **electro-mechanical** products: contemporary **pull handles**, **lever/paddle handles**, **deadlocks/deadlatches**, **cylinders**, **transom door closers**, and hardware like **flushbolts** and **armoured strikes**, alongside access-control staples such as **electric strikes**, **deadlocking/solenoid bolts**, **shearlocks**, **cabinet locks**, and **IP-rated keypads and exit switches**.

The company also highlights **BS EN ISO 9001:2015 approval**, technical support, CAD/design capability, and a stock-led operation aimed at quick dispatch - positioning Alpro as a practical "solve the door problem" brand for installers and fabricators rather than a consumer retail name.
