Specification Summary

Brand	Alpro
Product type	Alpro

Product Description

The Alpro ALS1113 is a 13mm rebate plate specifically designed for use with the Alpro AL110 series ANSI electric strikes. It is an essential accessory when installing an AL110 electric strike into a rebated door frame, ensuring the correct rebate depth is achieved for proper alignment between the strike keeper and the door latch.

Manufactured from high-quality Satin Anodised Aluminium, this rebate plate provides a clean, professional finish while maintaining the security and functionality of your access control system. It fits directly to the AL110 strike body, preventing the strike face from sitting proud or recessed incorrectly in rebated frames.

Technical Specifications

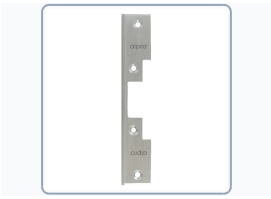

- **Brand:** Alpro
- **Manufacturer Reference:** ALS1113
- **Compatibility:** Alpro AL110 series electric strikes
- **Rebate Depth:** 13mm
- **Finish:** Satin Anodised Aluminium
- **Faceplate Height:** 182mm
- **Faceplate Width:** 31mm

- **Weight:** 90g

Key Features

- **Perfect Alignment:** Ensures proper alignment between the strike keeper and the door latch in rebated frames.
- **Durable Construction:** Made from robust Satin Anodised Aluminium for long-lasting performance.
- **Seamless Integration:** Fits directly to the AL110 strike body to accommodate rebated frame profiles.
- **Professional Finish:** Provides a neat, flush appearance on rebated doors.

Brand Profile

Alpro

Alpro (Alpro Architectural Hardware) is a UK supplier of **architectural door hardware and access-control components**, focused heavily on the **commercial aluminium door (OEM) market** and the wider **access control** environment. It operates as a **division of IEC Limited**, an **independent, family-owned** company founded in **1938** to supply quality mechanical components.

Alpro's catalogue spans both **mechanical** and **electro-mechanical** products: contemporary **pull handles**, **lever/paddle handles**, **deadlocks/deadlatches**, **cylinders**, **transom door closers**, and hardware like **flushbolts** and **armoured strikes**, alongside access-control staples such as **electric strikes**, **deadlocking/solenoid bolts**, **shearlocks**, **cabinet locks**, and **IP-rated keypads and exit switches**.

The company also highlights **BS EN ISO 9001:2015 approval**, technical support, CAD/design capability, and a stock-led operation aimed at quick dispatch - positioning Alpro as a practical "solve the door problem" brand for installers and fabricators rather than a consumer retail name.
