Specification Summary

Brand	Alpro
Product type	Alpro

Product Description

The Alpro ALEX2025 is a 25mm extension lip designed specifically for the Alpro AL2000 series of electric strikes. This accessory is essential when installing an AL2000 series electric strike on non-standard or deeper door frames, ensuring a secure fit and seamless integration.

By extending the strike lip, it allows the latch bolt of the door lock to transition smoothly into the electric release, maintaining the high-security performance of your access control system. Crafted with precision, this extension lip is durable, reliable, and designed to fit pre-drilled AL2000 strike bodies.

Please note that this product is the 25mm extension lip version (manufacturer reference ALEX2025).

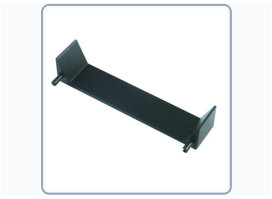

Technical Specifications

- **Brand:** Alpro
- **Manufacturer Reference:** ALEX2025
- **Extension Lip Width:** 25mm
- **Compatibility:** Alpro AL2000 series electric strikes
- **Weight:** 40g
- **Barcode:** 5055120698915

Key Features

- **Enhanced Installation Flexibility:** Enables the installation of AL2000 series electric strikes on door frames of varying thicknesses.
- **Seamless Integration:** Ensures a perfect fit and smooth latch transition for reliable access control.
- **Durable Construction:** Built to Alpro's high standards for long-lasting reliability and security.
- **Easy to Fit:** Designed to suit pre-drilled AL2000 series strike bodies.

Brand Profile

Alpro

Alpro (Alpro Architectural Hardware) is a UK supplier of **architectural door hardware and access-control components**, focused heavily on the **commercial aluminium door (OEM) market** and the wider **access control** environment. It operates as a **division of IEC Limited**, an **independent, family-owned** company founded in **1938** to supply quality mechanical components.

Alpro's catalogue spans both **mechanical** and **electro-mechanical** products: contemporary **pull handles**, **lever/paddle handles**, **deadlocks/deadlatches**, **cylinders**, **transom door closers**, and hardware like **flushbolts** and **armoured strikes**, alongside access-control staples such as **electric strikes**, **deadlocking/solenoid bolts**, **shearlocks**, **cabinet locks**, and **IP-rated keypads and exit switches**.

The company also highlights **BS EN ISO 9001:2015 approval**, technical support, CAD/design capability, and a stock-led operation aimed at quick dispatch - positioning Alpro as a practical "solve the door problem" brand for installers and fabricators rather than a consumer retail name.
